

PRS calculation

LD adjustment

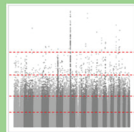

- e.g., clumping

Beta shrinkage

- e.g., LASSO/ridge

P value thresholding

- PRS at multiple P

Test

ID	BMI	PRS
101	24.1	0.43
102	28.3	1.61
103	31.2	0.83
104	19.4	3.54

Generate PRS
+
Perform association testing

Validate

Out-of-sample PRS testing

- K -fold cross-validation
- Test in data separate from base/target
